NAVEEN KUMAR K M

Bengaluru, India | +91-9591502209 | kmnaveenkm85@gmail.com | linkedin.com/in/naveenkm07 | github.com/Naveenkm07

PROFESSIONAL SUMMARY

Computer Science & Engineering student with 7 months of AI/ML internship experience in model development, data analysis, and automation workflows. Proficient in Python, NLP, and content analytics with hands-on exposure to Generative AI (LLMs, embeddings). Strong written and verbal communication skills demonstrated through 10+ hackathon presentations, TEDx event coordination, and structured project documentation. Eager to leverage AI-driven automation and analytical skills to optimize content creation, review, and publishing workflows at Infineon Technologies.

TECHNICAL SKILLS

AI & Automation:	Python, scikit-learn, TensorFlow, NLP, Text Classification, Data Preprocessing, ML-Flow, Generative AI (LLMs, Embeddings)
Content & Analytics:	Data Analysis, Data Visualization, Power BI, Content Analytics, Pandas, NumPy, Matplotlib, PySpark
Data & Tools:	MySQL, MongoDB, SQLite, REST APIs, Postman, Flask, Selenium, HTML, CSS, JavaScript
DevOps & Cloud:	Git, GitHub, Azure DevOps, CI/CD Pipelines, Docker, AWS (Basic), Azure (Basic), GCP (Basic)
Soft Skills:	Technical Writing, Documentation, Agile/SDLC, Stakeholder Communication, Team Coordination, Analytical Thinking

PROFESSIONAL EXPERIENCE

AI/ML Intern — Ember Quest *4 Months*

- Designed and implemented AI-enabled workflows for automated data preprocessing and model evaluation, reducing manual effort by 30%.
- Leveraged Python and scikit-learn to analyse content performance data across real-world datasets, deriving actionable insights for model improvement.
- Documented findings and presented analytical reports to team leads, ensuring clear stakeholder communication in an Agile environment.

AI/ML Industry Trainee — Crystallize Technologies *3 Months*

- Completed advanced training in machine learning, deep learning, and AI-driven automation techniques for content and data workflows.
- Authored structured project documentation and delivered presentations on AI project outcomes to mentors and stakeholders.

KEY PROJECTS

Spam Email Classifier — AI-Driven Content Analysis

Python, scikit-learn, NLP, Pandas, NumPy

- Built an NLP-based AI classification model for automated content analysis and spam detection with high precision and recall.
- Implemented end-to-end text preprocessing pipeline including tokenization, vectorization, and feature engineering to analyse content patterns.

Soil Fertility Analyzer — Data Analytics & Automation

Python, scikit-learn, Pandas, NumPy, Matplotlib

- Developed automated ML classification pipeline achieving 90%+ accuracy, with data-driven insights derived from agricultural datasets.
- Created interactive data visualizations and performance dashboards for continuous improvement analysis.

SecureVault — Data Management System

Python, SQL, Flask, AES-256 Encryption

- Engineered a structured, reusable data management system with optimized SQL queries improving data retrieval efficiency by 40%.

EDUCATION

B.E. in Computer Science & Engineering — New Horizon College of Engineering, Bengaluru 2024–2027 | CGPA: 8.56

Diploma in Computer Science Engineering — SJM Polytechnic, Chitradurga 2021–2024 | 82.12%

CERTIFICATIONS

- **Building Intelligent Agents with Generative AI** — NHCE (Oct 2025)
- **AI For All** — Intel (Jul 2025) | **Gen AI Powered Data Analytics** — Forage (Jul 2025)
- **Hands-on with Azure Cloud & AI Fundamentals** — NHCE (Oct 2025)

ACHIEVEMENTS & LEADERSHIP

- **2nd Place — Srujana 2025 Hackathon** (Chanakya University), awarded by Former ISRO Chairman.
- **TEDx NHCE Board Member (2025–2026)** — Led event planning, content coordination, and stakeholder communication.
- Participated in **10+ national-level hackathons**, leading project documentation and team communication.
- Open-source contributor maintaining **70+ public repositories** on GitHub with CI/CD workflows.
