NAVEEN KUMAR K M

+91 9591502209 / kmnaveenkm85@gmail.com l LinkedIn | GitHub|

PROFESSIONAL SUMMARY

Computer Science Engineering student with strong foundation in software development, machine learning, and database systems. Experienced in building secure, cloud-enabled applications using Python, SQL, REST APIs, and web technologies. Seeking Software Engineer / AI-ML internship roles to apply problem-solving and development skills.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Python, SQL
- **Web Technologies:** HTML, CSS, JavaScript, Node.js, REST API Development
- **Databases:** MySQL, MongoDB, SQLite
- **DevOps & Tools:** Git, GitHub, Jenkins, Docker, Kubernetes, CI/CD Pipelines, Vercel
- **Testing & Quality Assurance:** Postman, Selenium WebDriver, pytest, REST API Testing
- **Cloud & Operating Systems:** AWS, Azure, GCP, Linux, Windows
- **Core Competencies:** Data Structures Implementation, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Software Development Life Cycle (SDLC), Agile Methodology, Machine Learning, Model Evaluation & Validation

PROJECTS

- **Personal Data Manager – Secure Data Management System**
  Technologies: Python, SQLite / MySQL, AES Encryption, Tkinter, Flask
  • Developed a secure personal data management system with authentication and role-based access control.
  • Implemented CRUD operations, encryption protocols, and cloud backup features for data security.
  • Optimized database queries to improve data retrieval efficiency by 40%.
  GitHub | Demo
- **Soil Fertility Analysis – Machine Learning Classification Model**
  Technologies: Python, Pandas, NumPy, scikit-learn, matplotlib
  • Built and trained machine learning classification model to predict soil fertility using N, P, K, and pH values.
  • Implemented model evaluation techniques (confusion matrix, precision, recall) for accuracy assessment.
  • Generated actionable crop and fertilizer recommendations based on prediction results.
  GitHub | Demo
- **Kerala Krishi Sahayak – AI-Based Farming Assistant Application**
  Technologies: Flutter, Dart, State Management, Local Storage
  • Integrated data from 8 government agricultural schemes into a unified mobile platform.
  • Improved farmer adoption rate by 12% through simplified information access and user-friendly interface.
  • Implemented state management patterns and local data persistence for offline functionality.
  GitHub / Demo

EDUCATION

Bachelor of Engineering in Computer Science (CSE)
New Horizon College of Engineering, Bengaluru | 2024–2027 | CGPA: 8.32
Diploma in Computer Science
SJM Polytechnic, Chitradurga | 2021–2024 | 82.12%
Secondary School Leaving Certificate (SSLC)
SJM Residential School, Chitradurga | 2020–2021 | 93.12%

PROFESSIONAL EXPERIENCE

AI/ML Internship – Ember Quest (4 Months)

- Applied machine learning algorithms for real-world problem-solving and data analysis.
- Gained hands-on experience in model development, training, and deployment workflows.
- Collaborated using Git-based version control and Agile development practices.

Industry Training – AI/ML – Crystallize Technologies (3 Months)

- Completed comprehensive AI/ML training covering advanced concepts in machine learning and deep learning.

- Worked on industry-relevant projects and best practices in software development and SDLC.

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

- **Srujana 2025 Hackathon** – 2nd Place Winner (Chanakya University, Bengaluru), awarded by Dr. S. Somasekhar, Former ISRO Chairman.
- **Code4EDTech Hackathon 2025** – Participated in 24-hour national-level AI-EdTech challenge, developing ML-powered education solutions (Innomatics Research Labs).
- **TEDx NHCE Board Member** (2025–2026) – Active contributor to organization and execution of TEDx events.
- **Hackathon Participant** – Successfully participated in 5+ national-level hackathons demonstrating problem-solving and development skills.
- **DSA Course Certificate** – Completed GeeksforGeeks Data Structures and Algorithms course, mastering advanced problem-solving techniques.
