PROFESSIONAL SUMMARY

Computer Science and Engineering student with hands-on experience in Python, SQL, machine learning, and data-driven problem solving. Completed 7 months of AI/ML internship training covering model development, data analysis, and deployment workflows. Experienced in project coordination, team collaboration, and documentation through 10+ hackathons and leadership roles. Exploring Generative AI concepts including LLMs and embeddings. Maintains 70+ public GitHub repositories with CI/CD workflows. Seeking an internship to apply data analysis, ML, and project coordination skills in a professional environment.

TECHNICAL SKILLS

Programming & Data: Python, PySpark, SQL, C, C++, Pandas, NumPy, Matplotlib
Machine Learning: scikit-learn, TensorFlow, Classification, Regression, Clustering, NLP (Text Classification), Model Evaluation, Data Preprocessing, Feature Engineering, ML-Flow
AI Interests: Exploring Generative AI (LLMs, Embeddings, Vector Stores), Agentic AI Concepts
Data & BI Tools: MySQL, MongoDB, SQLite, Data Analysis, Data Visualization, Power BI
Version Control & CI/CD: Git, GitHub, Azure DevOps, CI/CD Pipelines, Docker, Jenkins
Cloud Platforms: AWS (Basic), Azure (Basic), GCP (Basic)
Project & Agile: Agile Methodology, SDLC, Project Documentation, Team Coordination, Stakeholder Communication
Other Tools: Postman, Selenium, pytest, REST API Testing, Flask, HTML, CSS, JavaScript

PROFESSIONAL EXPERIENCE

AI/ML Intern - Ember Quest | *4 Months*

- Built and evaluated ML models for classification and regression tasks using Python and scikit-learn on real-world datasets.
- Performed data preprocessing, feature engineering, and exploratory data analysis to prepare datasets for model training.
- Supported model experimentation and structured workflow tracking in an Agile development environment.
- Documented findings, presented results to team leads, and collaborated with cross-functional team members.

AI/ML Industry Trainee - Crystallize Technologies | *3 Months*

- Completed advanced training in machine learning, deep learning concepts, and model optimization techniques.
- Worked on industry-relevant ML projects involving data cleaning, transformation, and evaluation workflows.
- Documented project progress and delivered presentations on project outcomes to mentors and stakeholders.

PROJECTS

Soil Fertility Analyzer | *Python, scikit-learn, Pandas, NumPy, Matplotlib*

- Built ML classification model to predict soil fertility using N, P, K, and pH values with 90%+ accuracy.
- Performed data preprocessing, feature scaling, and exploratory data analysis on agricultural datasets.
- Implemented model evaluation metrics (confusion matrix, precision, recall, F1-score) to assess accuracy.
- Live: soil-fertilizer.netlify.app | GitHub: github.com/Naveenkm07/Soil-Fertilisation-Analyzer-07

SecureVault - Data Management System | *Python, SQL, SQLite/MySQL, Flask, AES-256*

- Developed structured data management system with Python backend and SQL database for secure data storage.
- Optimized SQL database queries to improve data retrieval efficiency by 40%.
- Implemented role-based access control and AES-256 encryption for data security.
- Live: cse-tau.vercel.app | GitHub: github.com/Naveenkm07/PersonalDataManager-ADV

Spam Email Classifier | *Python, scikit-learn, NLP, Pandas, NumPy*

- Built ML classification model for spam email detection using natural language processing and text feature extraction.
- Implemented text preprocessing pipeline including tokenization, vectorization, and feature engineering.
- Trained and evaluated multiple ML classifiers to identify optimal model with high precision and recall.
- Live: spam-email-classification.vercel.app | GitHub: github.com/Naveenkm07/spam-email-classification

EDUCATION

B.E. in Computer Science and Engineering - New Horizon College of Engineering, Bengaluru | 2024-2027 | CGPA: 8.56
Diploma in Computer Science Engineering - SJM Polytechnic, Chitradurga | 2021-2024 | 82.12%
SSLC - SJM Residential School, Chitradurga | 2020-2021 | 93.12%

ACHIEVEMENTS & LEADERSHIP

- 2nd Place - Srujana 2025 Hackathon (Chanakya University), awarded by Former ISRO Chairman.
- 2nd Prize - Mini Project Competition at NHCE, awarded by Dr. Manjunath S, Principal.
- TEDx NHCE Board Member (2025-2026) - Coordinated event planning, stakeholder communication, and team activities.
- Participated in 10+ national-level hackathons, leading project planning, documentation, and team communication.
- Open-source contributor maintaining 70+ public repositories on GitHub.

CERTIFICATIONS

- Building Intelligent Agents with Generative AI - New Horizon College of Engineering (Oct 2025)
- Hands-on with Azure Cloud & AI Fundamentals - New Horizon College of Engineering (Oct 2025)
- AI For All - Intel (Jul 2025)
- Gen AI Powered Data Analytics Job Simulation - Forage (Jul 2025)
- AI/ML Industry Certification - Crystallize Technologies
- AI/ML Internship Completion Certificate - Ember Quest
