Naveen Kumar K M

Bengaluru, India | +91 9591502209 | kmnaveenkm85@gmail.com LinkedIn: linkedin.com/in/naveenkm07 | GitHub: github.com/Naveenkm07 | Portfolio: naveenkm07.netlify.app

PROFESSIONAL SUMMARY

Detail-oriented Computer Science Engineering student with hands-on experience in Machine Learning, Natural Language Processing (NLP), and Artificial Intelligence. Demonstrated success in developing and deploying predictive models (TensorFlow, scikit-learn) and integrating AI microservices via FastAPI. Proficient in data preprocessing, feature engineering, and model evaluation. Seeking an AI/ML Engineer Internship to apply analytical skills and contribute to scalable, intelligent data solutions.

TECHNICAL SKILLS

- **Artificial Intelligence & Machine Learning:** TensorFlow, Python, scikit-learn, Natural Language Processing (NLP), Generative AI (LLMs), Computer Vision basics
- **Data Science & Analytics:** Data Preprocessing, Feature Engineering, Model Optimization, Statistical Evaluation (Confusion Matrix, Precision, Recall, F1-Score)
- **Backend & APIs:** FastAPI (Python), RESTful APIs, JWT Authentication, Microservices Architecture
- **Databases & Cloud:** MongoDB, Firebase, Supabase, MySQL
- **DevOps & Tools:** Git, GitHub, CI/CD Pipelines, Postman, Agile Methodology, SDLC

PROFESSIONAL EXPERIENCE

AI/ML Intern | Ember Quest | Apr 2024 - Jul 2024 - Developed a Spam Email Classifier using Python, scikit-learn, and NLP techniques including tokenization, TF-IDF vectorization, and feature extraction. - Evaluated multiple machine learning classifiers, achieving high precision and recall on real-world datasets. - Built a Soil Fertility Prediction model achieving 90%+ accuracy using ML classification on agricultural datasets. - Applied comprehensive data preprocessing, feature engineering, and evaluation metrics following Software Development Life Cycle (SDLC) best practices. - Deployed ML model outputs via REST API endpoints (FastAPI) and maintained version control using Git/GitHub. - Tracked deliverables in Agile sprint cycles, identifying and resolving model performance issues.

AI/ML Industry Trainee | Crystallize Technologies | 3 Months - Completed advanced training in machine learning concepts, statistical modeling, and model optimization techniques. - Worked on industry projects involving end-to-end data pipelines, backend API connectivity, and deployment workflows. - Maintained technical documentation for machine learning modules and delivered structured presentations to stakeholders.

PROJECTS

KrushikaDhara - AI Smart Farming App | *Python, TensorFlow, FastAPI, MongoDB, Flutter* | GitHub - Developed an AI microservice using TensorFlow and FastAPI to perform real-time crop disease detection via camera input. - Integrated a Generative AI chatbot to provide conversational assistance for agricultural queries. - Deployed the backend AI services and integrated them with a mobile frontend using REST APIs, demonstrating full-stack AI implementation.

Pro Resume Builder - AI Features | *React Native, FastAPI, MongoDB* | GitHub - Engineered a full-stack application featuring smart PDF/DOCX upload parsing and data extraction. - Integrated AI-powered features including a brand analyzer, resume bullet impact scorer, and STAR interview answer scorer. - Designed a scalable RESTful backend service architecture to handle intelligent data processing.

EDUCATION

B.E. in Computer Science and Engineering | New Horizon College of Engineering, Bengaluru | 2024 - 2027 | CGPA: 8.56
Diploma in Computer Science Engineering | SJM Polytechnic, Chitradurga | 2021 - 2024 | 82.12%

ACHIEVEMENTS

- 2nd Place - Srujana 2025 Hackathon (Chanakya University), awarded by Former ISRO Chairman.
- 2nd Prize - Mini Project Competition at NHCE, awarded by Dr. Manjunath S, Principal, NHCE.
