PROFESSIONAL SUMMARY

Results-driven Computer Science Engineering student specializing in Cross-Platform Mobile Application Development using Flutter and React Native. Proven ability to build, test, and deploy production-level iOS and Android applications integrating RESTful APIs, cloud databases (Firebase, MongoDB), and CI/CD pipelines (Codemagic). Seeking a Mobile App Developer role to leverage expertise in UI/UX translation, state management, and full-stack integration to deliver high-performance mobile solutions.

TECHNICAL SKILLS

- **Mobile Development Frameworks:** Flutter (Dart), React Native (TypeScript), Android Studio, iOS, Android, Cross-Platform Development
- **Backend & APIs:** RESTful API Integration, FastAPI (Python), JWT Authentication, Google OAuth, JSON
- **Database & Cloud Services:** Firebase (Realtime Database, FCM, Auth), MongoDB, Supabase, Cloudinary
- **Tools & DevOps:** Git, GitHub, GitHub Actions, CI/CD Pipelines (Codemagic, Vercel, Netlify), Postman
- **Methodologies:** Agile Development, SDLC, Mobile UI/UX Design, Debugging, Technical Documentation

PROFESSIONAL EXPERIENCE

AI/ML Intern (Frontend & API Integration) | Ember Quest | Apr 2024 - Jul 2024 - Integrated machine learning model outputs into applications via REST API endpoints, ensuring seamless frontend-backend communication. - Maintained version control using Git/GitHub, writing clean, structured, and maintainable code adhering to industry development standards. - Collaborated in Agile sprint cycles, participating in code reviews, tracking deliverables, and resolving software bugs and runtime issues. - Delivered technical documentation and communicated findings to team leads and stakeholders.

Industry Trainee | Crystallize Technologies | 3 Months - Worked on industry projects involving data pipelines, backend API connectivity, and application deployment workflows. - Maintained technical documentation for assigned software modules and delivered structured presentations on project outcomes.

PROJECTS

KrushikaDhara - Smart Farming App | *Flutter, Python, FastAPI, MongoDB* | Live | GitHub - Developed a cross-platform (iOS and Android) mobile app in Flutter, translating UI/UX wireframes into responsive and visually consistent screens. - Integrated third-party tools including Google Maps, Firebase FCM for push notifications, and FastAPI REST APIs with JWT authentication. - Configured Codemagic CI/CD pipelines to automate testing and build processes, ensuring App Store and Google Play Store deployment readiness.

OrbitPlan - Project Management App | *React Native, FastAPI, MongoDB, Firebase* | Live | GitHub - Built a mobile task management application with real-time collaboration using Firebase Realtime Database and Google OAuth login. - Implemented role-based access control and automated deadline push notifications. - Tested, debugged, and troubleshot the application across multiple Android and iOS devices, verifying compatibility across varying screen sizes and OS versions to resolve UI and runtime issues.

Pro Resume Builder | *React Native, FastAPI, MongoDB* | Live | GitHub - Built a full-stack resume builder featuring a live preview editor and smart document parsing capabilities. - Implemented JWT and Google OAuth authentication and a RESTful backend service architecture.

EDUCATION

B.E. in Computer Science and Engineering | New Horizon College of Engineering, Bengaluru | 2024 - 2027 | CGPA: 8.56
Diploma in Computer Science Engineering | SJM Polytechnic, Chitradurga | 2021 - 2024 | 82.12%

ACHIEVEMENTS

- 2nd Place - Srujana 2025 Hackathon (Chanakya University), awarded by Former ISRO Chairman.
- Open-source contributor maintaining 70+ public repositories on GitHub with automated CI/CD workflows.
