PROFESSIONAL SUMMARY

Computer Science student (CGPA 8.66) based in Bengaluru with real internship experience in software product testing, Python scripting, and MySQL. Builds hands-on projects connecting Gemini and OpenAI APIs into web applications hosted on Vercel, and uses modern AI tools daily to learn quickly and solve problems faster. Srujana 2025 National Hackathon runner-up (awarded by a former ISRO Chairman), available to join immediately.

TECHNICAL SKILLS

Programming & Database: Python, MySQL
Generative AI & Tools: LLM APIs (Gemini, OpenAI), Prompt Engineering, AI Developer & Productivity Tools
Version Control & Hosting: Git, GitHub, Vercel

PROFESSIONAL EXPERIENCE

Solutions & Product Associate - B2B SaaS Startup (Stealth) **Jul 2026 - Sep 2026 | Bengaluru (Hybrid)**
- Worked on product configuration, customer onboarding, and setting up proof-of-concept environments for a DPDP Act-compliant enterprise software platform.
- Performed product testing, bug reporting, and documentation - developed a methodical approach to identifying and reporting defects in a fast-paced startup environment.

AI/ML Intern - Ember Quest **Apr 2024 - Jul 2024 | Bengaluru** | Post
- Developed data processing and analysis scripts using Python across datasets of 10,000+ records, enhancing pipeline execution efficiency.
- Managed structured data schemas and executed optimized MySQL queries to prepare clean inputs for predictive models and dashboards.

AI/ML Industry Trainee - Crystallize Technologies **Aug 2023 - Nov 2023 | Remote** | Post
- Built automated Python data cleaning scripts to handle missing values and preprocess tabular data, reducing manual preparation time by 30%.
- Conducted exploratory data queries and validation routines in MySQL, ensuring data consistency across multiple project datasets.

KEY PROJECTS

Pro Resume Builder: AI-Powered Document Analysis *Python, LLM APIs (Gemini / OpenAI), MySQL, Vercel, GitHub*
- Created an AI tool that scans resumes, scores content, and suggests better wording to strengthen bullet points using Gemini and OpenAI.
- Stored user profiles and past reviews neatly in MySQL, and deployed the live web app on Vercel so anyone can try it out.
